Chronic Lung Conditions and Smoking Cessation

This unique educational event focuses on smoking cessation, chronic lung conditions and cancers attributable to tobacco and other irritants. It will feature presentations and panel discussions from speakers who are experts in the field of respiratory health and management of lung disease and its complications.

For members of the Multidisciplinary Health Care Team including GPs, physicians, dentists, nurses, optometrists, podiatrists, pharmacists, physiotherapists, Aboriginal Health Workers and other allied health professionals.

- Presentations on the latest treatments and management of COPD and lung cancers
- Expert panel open for discussions throughout the day
- Internationally renowned smoking cessation presenter Dr Hayden McRobbie
- Interactive workshop on smoking cessation
- Network opportunities with other health professionals
- Opportunities to develop and strengthen collaboration and referral pathways
- AHPRA CPD: Six hours plus optional online assessment
- Online availability of presentations
