The University of Western Australia in association with the WA Musculoskeletal Health Network is proud to present:

**Musculoskeletal Disease & Chronic Pain Seminar**

This unique educational seminar will provide an update on the best clinical practice for community management of consumers with complex and/or chronic musculoskeletal disease, including musculoskeletal pain, in Western Australia.

The seminar will see the launch of the new “Service model for community-based musculoskeletal health in Western Australia”.

Expert speakers include Dr Andrew Briggs, Dr Madelynn Chan, Professor Peter O’Sullivan, Professor Stephan Schug, Associate Professor Helen Slater, and Professor Piers Yates.

Open to all members of the multidisciplinary health care team.

- Presentations from across the spectrum of health professions
- A platform for health practitioners to share their expertise
- Network opportunities with other health professionals
- Develop and strengthen collaboration and referral pathways
- 5.5 active lecture hours plus optional post-seminar assessment
