Wound Care and Skin Integrity

The University of Western Australia in association with WoundsWest and Silver Chain is proud to present this one day seminar that will provide an update in best practice and the clinical skills required for assessment and management of wounds in Western Australia.

Open to all members of the multidisciplinary health care team, the seminar day will provide opportunities for networking and collaboration between professions.

Expert speakers include Geoff Sussman, Jenny Prentice, Donna Angel, Liz Howse, Laurie Foley and Juliet Keaton.

Learning Objectives:

- The prevalence of wounds in W.A.
- The pathophysiology of the various types of wound
- Nutrition requirements that facilitate wound healing
- Proficiency in dressings selection and bandaging techniques
- Management of the high risk foot
- Management of venous, arterial, mixed and neuropathic ulcers
- AHPRA Continuing Professional Development credits
- Online availability of presentations
